

Spelub-EP-2/B
Extreme Pressure Lithium Grease

Spelub-EP-2/B greases are formulated and are used in variety of applications and industries to provide protection for components like bearing, roller bearing, gears, cams, bushings, pins and others. Spelub-EP-2/B grease offer range of benefits like cost saving, longer tool life, protection against rust and low downtime.

Advantages and Benefits:

Features	Benefits
<i>Extreme Pressure Properties</i>	Addition of multiple additives ensures that Spelub-EP-2/B provides protection even in medium load conditions.
<i>Excellent Mechanical Stability</i>	Performs in range of high and low speed applications.
<i>Water Resistance</i>	Spelub-EP-2/B grease has good resistance to water and moisture. Does not wash away and protects the mechanical parts in moisture conditions.
<i>Anti-rust and Anti-corrosion Properties</i>	Mechanical parts lubricated with Spelub-EP-2/B greases are protected against rust and corrosion that extend the service life.
<i>Excellent Adhesion</i>	The overall stability of grease is increased. It does not leak easily. Increases the re-lubrication intervals.
<i>Anti-Wear Properties</i>	Provides the mechanical parts against wear to maximize the service life of the parts and machine.

Typical Properties:

	Spelub-EP-2/B
Appearance	Brownish
Base Oil	Highly Refined Mineral Oil
Thickener	Lithium Soap
Operating Temperature	-10°C to 140°C
Drop Point	>180°C
Penetration	265 to 295
Evaporation Loss	< 3%
Copper Corrosion	<1a.

Application: Spelub-EP-2/B have various applications from centralized lubrication system to manual application. Mechanical parts located in high temperature zones and loads.

Packing: 20 Kg Bucket 180 Kg Barrel.
