

SpelubGearX-320

High Performance Gear Oil

Spelub GearX-320 is fully formulated E.P. gear oil based on highly refined mineral oil and additives. GearX-320 provides maximum protections against wear and extends the service life and time interval of the oil change. It has high viscosity index base oil that allows GearX-320 to operate in wide range of temperature. It has high oxidation stability and when enhanced with high performance additives GearX-320 become highly stable and provides high performance oil that requires minimum maintenance of equipment.

Advantages and Benefits:

Features	Benefits
<i>High Grade base oil</i>	Will outperform regular oils and has higher life than conventional lubricants.
<i>Anti-Oxidant Package</i>	Metal deactivators and Rust preventives.
<i>Anti wear Additives</i>	Anti wear additives allow GearX-320 to perform longer and increase the equipment life by multiple folds. Minimum maintenance and higher working hours.
<i>Metal deactivators and Rust preventives</i>	Makes sure that no varnish or like substance are formed. No corrosion or rust is formed on equipment.

Typical Properties:

	Spelub GearX-320
Appearance	Yellowish to Brown oil
ISO Viscosity Grade	320
Viscosity @ 40°C	320 ± 20 CST
Viscosity Index	> 95
Corrosion Test	< 1a
Flash Point	> 230°C
Density	0.89 ± 0.03 g/cm ³

Application: All type of industrial gears, enclosed gears and worm gears running in heavy duty operations in high load and speeds.

Packing: 26 liters Bucket and 210 liters barrel.
