

Spelub Syngear-PG-320
Synthetic PAG based Gear Oil

Spelub Syngear PG-320 is formulated with synthetic glycols, extreme pressure and anti-wear and tear additives that increase operating efficiency of the gears. Spelub Syngear PG-320 reduces friction and lowers the wear tear on metal contacts.

Advantages and Benefits:

Features	Benefits
<i>Synthetic PAG</i>	Provides lower friction for efficient movements. Increase the interval for maintenance and decreases energy and consumption
<i>Anti-Friction</i>	Makes for easy movement lowers the wear and tear caused by the metal parts. Due to more efficient movement lower loads and energy are required resulting in savings of energy and electricity.
<i>Anti-Wear and Tear Properties</i>	Forms an excellent reactive film on-to metal surfaces that protects parts against abrasive wears. Increase the service life of the equipment.

Typical Properties:

Spelub Syngear PG-320	
Appearance	Amber Transparent
ISO Viscosity Grade	320
Viscosity	300 CST to 340 CST
Flash Point	> 230
Viscosity Index	210 min.

Application: To be used as gear lubricant in closed gearbox. Avoid mixing with mineral and other synthetic oils.

Packing: Available in 27 liter containers and 210 liter barrel.
